Motorised Torque Controlled Take-Up Systems

Mutoh's torque controlled continuous motorised take-up systems for the ValueJet and DrafStation series printers will neatly roll up prints coming off the printer.

Available in three different widths and compatible with both 2" and 3" core rolls, these motorised take-up systems allow take-up of standard media rolls:

- 600 mm (23.62") - 10 kg
- 1080 mm (42.51") - 1300 mm (51.18") - 20 kg
- 1600 mm (63") - 1900 mm (74.80") - 30 kg

All models support a maximum roll-up diameter of 150 mm. Offering an adjustable torque strength, the take-up systems are equipped with repositionable flanges to easily and conveniently load media cores and remove rolled up printed media rolls.
