

Pouches and Pouch Boards

Complete Laminating & Mounting Solutions in a Pouch!

Choose from a complete line of ProSEAL® pouch products to create professional indoor signs, displays and presentations in minutes.

Ideal for use on any SEAL roller laminator or ProSEAL® laminating system, these high quality yet affordable pouches make sense when you need to laminate just a few prints per day!

No need to buy rolls of laminating films, mounting adhesives and boards – simply keep a box of your favorite SEAL pouches in stock for fast and easy results. There's also quite a choice – check out your SEAL pouch options below:

Pouch Boards

Easy-to-use, ProSEAL® Pouch Boards provide a hassle-free finishing solution. They consist of a pre-cut foam board with over-laminating sheet that is ready to use without webbing, trimming and waste!

Simply slide your print into the pouch, insert the pouch board into your heated roller laminator and you've created striking indoor display graphics in just minutes. Better yet, ProSEAL® Pouch Boards are compatible with a wide range of printed media including ink jet, electrostatic, lithograph, newspaper, color copies and other plain papers.

Mount Boards

ProSEAL® Mount Boards offer a quick and easy mounting solution for times when an over-laminate is not needed. Pre-cut with a heat-activated adhesive, ProSEAL® mount boards allow you to mount textured prints such as canvas while also adding rigidity.

Flexible Laminating Pouches

ProSEAL® Flexible Laminating Pouches are the perfect tool for encapsulating your prints for protection and enhancement, while maintaining flexibility for rolling and shipping.

Flexible pouches are constructed from two pieces of laminated film, sealed at one end to form a pouch.

Create professional signs, retail and tradeshow displays, business presentations, encapsulated drawings and other printed media on-demand and with outstanding results.

Mounting Pouches With SuperStick® Technology

Looking to create a mounted graphic but with your choice of substrate? ProSEAL® Mounting Pouches give you flexibility and performance with a unique adhesive that will laminate and mount your print to any substrate in one, easy step!

These pouches consist of a top layer of over-laminate and a two-sided adhesive bottom layer of film coated with Superstick® adhesive. It creates a perfect bond to even the toughest to laminate prints and substrates. Simply slide your print into the pouch, place on a substrate of your choice and insert into your heated roller laminator and you've created an outstanding rigid display.

ProSEAL® Pouches...See the Difference Quality Makes

With ProSEAL® pouches, you'll really see the difference that superior quality can make. When you need to transform your graphics and digitally-printed output into presentation quality displays that look professionally prepared and finished, SEAL is the name you should trust as your single source for all your presentation graphics needs.
