

Fiery® XF

Increase your Productivity & Profits While Producing Brilliant Colour!

With EFI Fiery® XF, banners, posters, signs and vehicle wraps achieve a new dimension in colour! Powered by Bestcolor® Technology and based on industry-leading Colorproof™ XF, Fiery XF allows your aqueous, solvent, eco-solvent or UV printers to produce the most accurate and vibrant colours in the industry.

The solution's fast RIP speed also produces the best performance in all major printers including: VUTEk, HP, Epson, Canon, Mimaki, Mutoh Roland and others. Its automated workflow allows your shop to handle high volume production with tight turnaround schedules. In addition, Fiery XF comes in three configurations to match all your business needs and employees' skill level.

What are the major benefits of Fiery XF?

Superior colour and colour management.

Now, you can produce vibrant colours easily and quickly with industry-leading colour management tools. Intelligent Clean Colors and Full Gamut colour profiles address the specific colour needs of the large and superwide format production markets, so you can produce high quality, eye-catching images with consistent colour output that comes to life, regardless of the printing device.

Increase your capabilities and integrate with Adobe® Configurable Postscript Software Interpreter (CPSI).

By seamlessly integrating with Adobe CPSI, you can directly process images based on Adobe Postscript Level 3 (PS 3) to ensure correct interpretation of transparencies and over-prints, saving you precious time and greatly reducing scrap and production errors.

Profit from advanced spot colour management.

The Fiery XF Spot Colour Option reproduces spot colours digitally by maximizing and fully utilising your printer's colour space to ensure spot colour accuracy and consistency.

Make the most of your capacity.

Fiery XF processes various jobs at the same time with real-time, multi-tasking capabilities, enabling you to print and profile simultaneously, easily and quickly.

Print a variety of file formats and customise job processing to suit your needs.

Fiery XF's unique Nesting feature allows simultaneous printing of various files, formats and colour spaces. Jobs can be processed manually or automatically based on your production requirements.

Achieve a greater return on investment.

With its modular structure and ability to integrate with other EFI products, Fiery XF provides the flexibility to grow as your business expands.

Relieve stress from your operator's day.

The intuitive Fiery XF is easy to use, so it requires little or no operator training, regardless of your staff's skill level. "Fiery XF Wizards" eliminate guesswork and guide operators with step-by-step screen instructions for simple and quick creation or optimisation of media profiles.

Work in either Windows® or Macintosh® environment.

The solution provides a complete cross platform application, so you can work on either a Windows or Mac computer, enhancing your comfort level. The cross platform Windows® and Mac® client is already included in the standard bundle, saving you money. The XF server for Mac® is part of the proofing option.

Get production tools to enhance your productivity.

The cost-effective RIP comes with a full set of production tools such as Tiling, Nesting, Step & Repeat, and many others.

Is easy to update.

With the intuitive Online Updater, getting access to the latest releases, media profiles, printer drivers, service packs and fixes are quick and easy.

Fiery XF

FEATURE	EFI FIERY XF 3.1	EFI FIERY XF 3.1 ADV.	EFI FIERY XF 3.1 PREM.
General Features			
Server-client architecture incl. user and admin modes	✓	✓	✓
Direct printing from Mac or PC or via Hot Folders	✓	✓	✓
Multiple print queues (e.g. print while profiling)	✓	✓	✓
Multiple workflows/environments for simultaneous job set up and processing	✓	✓	✓
Job management via Client (Mac & PC, unlimited clients)	✓	✓	✓
Job monitor for job submission (Mac & PC)	✓	✓	✓
Workflow templates / environments	✓	✓	✓
Adobe CPSI 3017	✓	✓	✓
Online updater	✓	✓	✓
Expandable modular architecture	✓	✓	✓
Production Tools			
Manual job set up and fully automated workflows	✓	✓	✓
Nesting automatic or manual	✓	✓	✓
Step & Repeat automatic or manual	✓	✓	✓
Tiling with overlapping automatic or custom	✓	✓	✓
Save colour adjustments, Step & Repeat and Tiling presets	✓	✓	✓
Cropping, rotating, scaling, mirroring, inverting	✓	✓	✓
MGI I-cut level 1 and 2 support	✓	✓	✓
Fotoba cut device support	✓	✓	✓
Font Checker	✓	✓	✓
Colour Handling			
Intelligent Clean Color	✓	✓	✓
Full Gamut profiles	✓	✓	✓
Advanced image interpolation	✓	✓	✓
Spot colour matching	Requires EFI Spot Color Opt.	✓	✓
Integrated Pantone, HKS, Toyo, DIC and custom spot colours	Requires EFI Spot Color Opt.	✓	✓
Advanced spot colour management before job processing	Requires EFI Spot Color Opt.	✓	✓
Device Linearisation and auto ink limits	✓	✓	✓
ICC colour management	✓	✓	✓
Profiling tool (calibrate & profile own media)	Requires EFI Color Manager Opt.	Requires EFI Color Manager Opt.	✓
Profile optimisation	✓	✓	✓
Monitor profile selection – softproof capabilities	✓	✓	✓
Support of the most common measuring devices	✓	✓	✓
Productivity Features			
Multi printer support	✓	✓	✓
Vutek license	Requires EFI Printer Opt. Vutek	Requires EFI Printer Opt. Vutek	1
Printer licences M to XXL (< 19" to > 24"; EMEA only)	1	2	3
Printer licences XXL (> 24")	1	2	3
RIP & Print on the fly	✓	✓	✓
Advanced speed settings	✓	✓	✓
Supported Input Formats			
Postscript 3, PDF 1.7, EPS, JPEG, JPEG2000, TIFF, PSD	✓	✓	✓
Supported printer manufacturers (please contact your EFI sales representative for details)			
Agfa, Canon, Encad, Epson, HP, Kodak, Mimaki, Mutoh, Oki, Roland, Vutek, Xerox	✓	✓	✓
